Hi Marcia,

I see, sorry again about all of this, I hope it'll get sorted out soon. I did stop by her office today and I don't think she is in today. Her officemates haven't seen her so I don't think I missed her on her way out. Let me know how I can help from my end!

Hey John

This is the last email from CA DOJ. I see that I didn't specifically ask Maya to "start the clock" I guess I might have guessed incorrectly that she would once she saw this was concluded.

I will send her an email and make this clear, and you can check with her. That way we have a record.

Marcia,

This email responds to your emails of December 12 and 13, below, requesting clarification regarding our FOIA request. While it is true that our request for records is to provide us with the ability to comment meaningfully on the November 8, 2017 NODAs, our request is not limited to that purpose alone. Thus, we do not agree to exclude reports submitted to EPA pursuant to 60.5422a, subparagraphs (a), (b), and (c) from the scope of our request.

EPA, however, may exclude from the scope of our request reports submitted to EPA pursuant to 60.5423a(b). The same is true for reports submitted pursuant to 60.5420a, subparagraphs (a)(1), (a)(2), and (b)(10).

Thank you again for your assistance with our FOIA request.

Best regards,

Dan

Daniel,

As we discussed earlier, I am out of the country next week. John Cox, in my office, will be your contact. Please make sure you "reply all" with your response.

Thanks.

Daniel,

In our conversation on 12/6/17, and memorialized in your letter of 12/8/17, we discussed that your request for records was to provide you with the "ability to comment meaningfully on the two "notices of data availability published in the Federal Register on November 8, 2017 ("the NODAs")."

Since the new source performance standards for gas plants were not part of that NODA, the Regions (who have the majority of records responsive to your request) wanted clarification regarding the following records specific to gas plants:

60.5422a(a) - We would like to exclude these reports from the scope of the request

60.5422a(b) and (c) - We would like to exclude these reports from the scope of the request

60.5423a(b) - We would like to exclude these reports from the scope of the request

Please provide a response to these questions, as well as the questions which were sent previously (12/12/17):

Your Item 1 requests records of the "Reports submitted to EPA pursuant to Subpart OOOOa's reporting requirements including, but not limited to, the following reports: [a-e]" (emphasis added)

Request for Clarification regarding the scope of your request: There are additional reports in §60.5420a(a)(1) - Initial Notifications and (a)(2) - Well Completions - PLEASE CLARIFY if your request includes either of those reports.

Request for Clarification regarding the scope of your request: There are additional performance test reports submitted by the manufacturer per §60.5420a(b)(10). These performance tests are conducted pursuant to §60.5413a(d) and are not specific to an owner/operator - PLEASE CLARIFY if your request includes those reports.

Your expeditious reply will allow us to best respond to your request. Thank you.

Daniel,

I have received your letter. Thank for the clarifications and limit to the scope in certain areas. We will work to deliver responsive materials on a rolling basis, beginning with the CEDRI records (Item 1) and the email records of items 2 and 3 from the office of OECA, AO, and OAR (excluding OTAQ and ORIA).

As we discussed, the remainder of the records in Item 1 are located in the regions. We will provide those records in Item 1, from Regions 3-10 as soon as possible and on a rolling basis.

I am not able to provide a suggested time frame, at this point, for the remainder of the records in Items 2, and 3 (non-electronic records from OECA, AO and OAR excluding OTAQ and ORIA) until those offices and regions provide me with a timeline to provide such records.

I am not able to speak on the issue of your request for an extension to the November 8, 2017 Notices of Data Availability.

Thank you.
